25X1A 1. [ ] Comment. As compared with May 1953, fuel deliveries to the Soviet occupation forces from Boehlen as well as Leuna increased by more than 100 percent. From 1 January through 30 June 1953, a monthly average of 337 carloads of fuel was dispatched from Boehlen to air force units and of 356 carloads from Leuna to army units.

25X1A 2. [ ] Comment. Material for construction work at the Cranienburg and Schorfheide airfields and probably for construction of aircraft revetments and roads at the other airfields mentioned.

25X1A 3. [ ] Comment. Comparable data are available for 15 railroad stations of the 28 mentioned. As compared with May 1953, the volume of Soviet supply shipments increased by 50 percent. Between 1 January and 30 June 1953, a monthly average of 1,700 cars was employed for Soviet supply traffic.

25X1A 4. [ ] Comment. From the fact that the shipments were dispatched from Altenburg it is inferred that the three trains carried units of the 38th Army Brig @ Ohrdruf.
